

Weebly Home Page

This is the first page that visitors see when they arrive at your site - it's where you make your first impression.

Think about who will be visiting your site (e.g. teachers, family members, friends, classmates) and put yourself in their shoes. What will they want to know? Make sure they can quickly find that information from this page. Resist the urge to put everything on this page and let visitors explore other areas of your site from your navigation menu.

Minimal Home Page Requirements

- A Title: Something that defines who you are _____
- At least one photo (ideally a picture that you have taken!) that connects to you _____
- A paragraph that tell what your site is about, ideally in 50 words or less. Make sure anyone who visits your site will quickly understand what it's about without having to do a lot of reading. _____
- Show Dallmann your home page, and make sure you review the above information as you work on this! _____
